

Specification Amendment

Please add the paragraph at page 1, before lines 1, with the following written paragraph:

This application claims benefit to under 35 U.S.C. §119 of US Provisional Application No. 60/430,258, filed on December 2, 2002, and German Patent Application 10233516.8-41, filed July 23, 2002, wherein said application are hereby incorporated by reference.

Please amend the title as the Examiner suggested as following:

Method for identifying substances capable of modulating the activity of a target molecule
